

Curriculum Pathways – *Employ*

PATHWAY OVERVIEW -The *Employ Pathway* is tailored to meet the needs of students who will experience a modified curriculum in a condensed day format that ensures lower stamina does not inhibit progress towards improving engagement, relationship building and initial steps towards self-reflection and regulation. Tailored vocational and social-emotional interventions are woven into this program, where the priority is addressing underlying SEMH, barriers to learning and further needs and gaps in secondary or work-readiness, such as literacy. This pathway is based at Spring Lane, Whitefield.
